

Sebastian Bejarano

Software Engineer · Fullstack Developer

SUMMARY

Software engineer with 7+ years in advanced web technologies, building responsive, high-performance applications across agency, consultancy and product teams. Experience spans large-scale corporate sites, a national payments platform, and developer tooling. Works primarily in React, Astro, TypeScript and GraphQL.

EXPERIENCE

Software Developer — Archie Labs

Jun 2025 – Present

Miami, FL (remote) · React · Astro · GraphQL (Apollo) · TailwindCSS

- Build new features and maintain existing code for performance and scalability.
- Collaborate with cross-functional teams to design, test and deliver solutions.
- Perform code reviews, implement automated tests and troubleshoot for reliability.
- Drive continuous improvement in architecture, processes and CI/CD pipelines.

FullStack Developer — Zemsania Global Group

Jul 2023 – Feb 2024

Barcelona, Spain · Client: Banco Santander España · HCL Digital Experience

- Developed solutions in HCL Digital Experience for Banco Santander España.
- Achieved a significant reduction in vulnerabilities through effective security solutions.
- Collaborated on a new website, followed by a notable increase in user engagement.
- Estimated and coordinated team tasks; managed non-production deployments.

Developer — Tata Consultancy Services

Sep 2021 – Jun 2023

Medellín, Colombia · Client: Bancolombia · React · Contentful · Angular · Azure DevOps

- Shipped the Wompi startup website, significantly improving its presence in Colombia.
- Built the landing page for “El Limbo de las cosas,” Gold Effie winner in Colombia 2023.
- Developed frontend for Bancolombia with Angular and JavaScript, applying SEO and performance best practices.
- Received praise from the client and project leader for the quality and fidelity of delivered prototypes.

Earlier: **Front End Developer, Dentsu Creative** (client: Bancolombia) — led the Fénix redesign · Jul 2019 – Aug 2021
